Trestle

BY JOHN PAWSON
With his usual elegance, Pawson surprises us once again with this bench and table of exquisite proportions.

Solid oak legs and a subtle seat upholstered in a plain or padded finish in our collection of fabrics and leathers.

The table top is available in different sizes, along with a new 120 cm width, also in different finishes of the Viccarbe collection as well as lacquered.

Ideal both for residential and for waiting areas, restaurants and corridors in smart public spaces.

Now there is the new counter version to work at a medium height.

**John Pawson**

John Pawson was born in 1949 in Halifax, Yorkshire. After a period in the family textile business he lived for a number of years in Japan, moving to Tokyo towards the end of his stay, where he visited the studio of Japanese architect and designer Shiro Kuramata. Following his return to England, he enrolled at the Architecture Association in London, leaving to establish his own practice in 1981.

From the outset Pawson's work has focused on ways of approaching fundamental problems of space, proportion, light and materials – themes he also explored in his book Minimum, which examines the notion of simplicity in art, architecture and design across a variety of historical and cultural contexts.

Early commissions included homes for the writer Bruce Chatwin, opera director Pierre Audi and collector Doris Lockhart Saatchi, together with art galleries in London, Dublin and New York.

While private houses have remained a consistent strand of the work, subsequent projects have spanned a wide range of scales and typologies, ranging from a bridge across a lake and a flagship store for Calvin Klein, to ballet sets, yacht interiors and a new Cistercian monastery in Bohemia.

Pawson is currently working on the remodelling of the former Commonwealth Institute in London, which is scheduled to open as a new permanent home for the Design Museum in 2015.

COMPONENTS FOR COMPOSITIONS OF TABLE

For different compositions to those suggested, is offered the possibility to create your own compositions. For all of them will have to choose two end table tops, central table tops according to the length of the table, and the legs (the number of legs will be the result of the number of total table tops plus 1).

NOTE: Due to the fact that the wood used is natural, the finish may vary.
